265 MINK, 22 CLASSES SHOWN AT FUR FARMER'S FIELD DAY

The Lac la Biche Fur Farmers' Field Day was held Oct. 29 with a total of 265 mink, making a total of 22 classes. R. W. Gillies, fur farmer's supervisor, Don Fraser, provincial fur farmer's section, Dr. O'Donoghue, provincial veterinary, Len Gorham, retired mink rancher and Johnnie Cain, mink rancher, were out from the city. Mr. Gorham and Mr. Cain were judges.

The mink from Plamondon and Lac la Biche were so nearly the same that it was hard to pick the winners. The new lights supplied by the Edmonton Association were a great help. Ribbons were given for first, second and third, while merits were awarded to 4th, 5th and sixth. The Hudson Bay blanket given each year was won by Fred Smith, Plamondon, for Grand Champion male, (pastel male). Silver cup from B.C. Packers and Ajax Products Ltd. was won by M. Moskalyk with 165 points for Reserve Grand Champion male. Free coffee was served during the afternoon, thanks to Don and Dr. O'Donoghue.

A banquet was held in the York Hotel at 7 p.m. for 68 guests, followed by motion pictures of the Calgary Stampede and holiday trip in the Rockies. The judges congratulated the fur farmers on the display of mink, saying they enjoyed grading mink such as are raised in this area. Comments of Dr. O'Donoghue, on mink diseases, was appreciated by all. All in all, the field day and show was a success. The management hopes to have a larger and better one next year. They stress that everyone is invited to attend these field days, as they are not for mink ranchers only. They also express their appreciation for all who helped in any way to make the day a success.

A deluxe 6 volt lantern was given as a door prize and was won by Ernie Slager.

Harry Cramer is secretary of the Lac la Biche Fur Farmers' Association.

Floor Laid At Federal Building

LAC LA BICHE—Workmen put in a long day November 7, when the crew at the Federal building poured concrete for the floor of the new structure. About 12 to 15 men finished the re-enforced concrete floor at approximately 10 p.m. Water for the mix was kept hot and stoves in the basement provided warmth under the floor so as to avoid any danger of frost damaging the newly laid concrete. Contractors expect the structural steel for framework to arrive about Nov. 15.

$650.00 Realized At Bazaar, Sale

LAC LA BICHE—The Ladies' Society of the Greek Orthodox Church held the annual bazaar and bake sale in the basement of the new church, Nov. 8. In spite of the snowy weather, a large crowd took advantage of the opportunity to buy many and varied gift items.

All kinds of fancy work, aprons, woven rugs and knitted goods were offered at very reasonable prices. Many ladies went home with a delicious cake to tempt their family's appetite.

About $650.00 was cleared by the organization from the bazaar and sale.

By-Law Given Final Reading

LAC LA BICHE — Town Council called a special meeting to deal with some matters which required settlement before the time of the next regular meeting. Third and final reading was given to By-law No. 275, the By-law recently approved by the proprietary electors. Application will now be made to the provincial treasurer for the $6,000.00 required for additional equipment for the town's pumping and filtering system.

Another matter discussed was the purchase of a piece of land now belonging to Mrs. E. Joncas, in the west side of town. This land has been used by the town as part of its streets for some time, without charge. As the owner wished to fence it, an arrangement was agreed to whereby the town will purchase the land.

Russell Letain Wins Captain's Award

Russell Letain, son of Mr. and Mrs. Luis Letain of Edmonton, who have a summer cottage at Waskesiu Beach, was recently presented with the "Captain's Award" by Lieutenant Commander Blake at presentation ceremonies at H.M.C.S. Nonsuch, Edmonton. The award is given yearly to the Alberta sea cadet showing the best ability in seamanship. Russell won the award as coxswain, by steering his boat to come in second in the race, after one of the shrouds on his boat had broken, during the H.M.C.S. Quadra regatta in Comox Bay, near Vancouver Island, B.C.

Cadets of the crusader division of which Russell was petty officer in charge were each presented with the "top divisional award" for 1956.

41,000 Bushels Of Grain Delivered To Elevators

LAC LA BICHE — Approximately 41,000 bushels of grain have been delivered at the United Grain Growers' elevator here since Aug. 1, according to Mr. Hackman, the local agent. When the season opened in August there were about 50,000 bushels of grain still in storage from last year's crop, and while there has been some movement since then, the 65,000 bushel capacity elevator is now plugged for the second time this fall. About 50 per cent of deliveries have been wheat and 50 per cent coarse grains. Around 40 per cent of wheat has been of milling grades and 60 per cent low grades. Coarse grains are down in grade chiefly because of the unusually wet growing and ripening season.

Delivieries in the district are based on what is known as the 100-unit quota, which means that each producer is allowed to market 300 bushels of wheat, 800 bushels of oats or 500 bushels of barley under the first delivery quota. Only the first quota has been authorized at this date. As in many other places, the big problem is to get box cars. In past years the district benefitted at times by the many empty box cars coming back from the end of the line at Waterways. But this advantage is no longer being made available to this shipping point. The United Grain Growers handles all grain shipped from here.

1,247 X-Rayed At Lac la Biche

LAC LA BICHE — The T.B. X-ray clinic held in the memorial hall, Lac la Biche, drew to a close Tuesday afternoon, and the staff prepared to move on to Owl River and Imperial Mills where they were to spend the next two days. In spite of the wet snowy weather of Monday and Tuesday, the numbers of adults and children who availed themselves of the opportunity to have the free chest X-ray was most encouraging. Total for the four days was 1,247. Of these, 720 were school children. Monday morning was the busiest time at the clinic. Some 380 school children were X-rayed from 9:00 a.m. to 12:00 noon.

The large mobile unit is one of the two units operating in the Province of Alberta. Purchased by the sale of Christmas T.B. seals, the unit operates about 10 months of the year. The staff is composed of J. Uhryn, technician; Mrs. Uhryn, nurse in charge, and Louis Jacobson, assistant technician. Mr. Uhryn has been operating the unit for five years, and for the last three years his wife has been his capable assistant. They own their own commodious house trailer, pulled by a pick-up truck, in which they travel from point to point, making it possible to have some measure of home life and care for their 16-months-old daughter.

This clinic has been operating continuously for eight months. Work started in the northern part of the province in August at Elk point moving from there into the Cold Lake area and on to the Saskatchewan border. Swinging back, they covered the Smoky Lake, Vilna and Rich Lake districts before moving to Lac la Biche. By Thursday night their work in this area was completed, and Friday morning the unit left for the city where X-ray work will be carried on throughout the winter months. It is to be hoped that many will realize afresh the excellent work done by these clinics in detecting T.B. while in its early stages so that it can be cured and thus stamp out this dreaded diseases.

Seventy X-Rays By Mobile Unit

OWL RIVER — The mobile X-ray unit was ready to operate at 9:00 a.m., Nov. 7 at Owl River No. 2 School. The three efficient, young staff members in charge of the unit soon had 70 persons on record and chest X-rays had been taken of all.

Two well known school bus drivers helped to get the people to school on time. A successful turnout was reported for No. 1 school also, in the afternoon.

Prosperity Residents Give Warning Of "Death Corner" On New Highway

PROSPERITY — The current road program in Div. 5 on the district highway connecting Athabasca with Highway 46 is apparently completed, at least for this year.

What is puzzling the people of Propsperity district is: How many people will be killed at the end of the highway — a glorified death corner, 1 mile west and 1 mile south of Hammond (Prosperity)?

What was to have been a one-year project has now been watered down to a three-year program, with a dead end entirely unworthy of such a fine road. We are watching and waiting.

Did You Know?

LAC LA BICHE—That Section 17 of By-law No. 100 of the Town of Lac la Biche reads as follows:

"The owner or occupant of any dwelling or other building in the town in which fire is used shall cause every chimney to be swept at least once a year, and the chimney sweeper sweeping any chimney or flue shall give to the person having said chimney or flue swept, a certificate of the fact of the sweeping dated on the day such work is done".

Amateur Concert

LAC LA BICHE—The Lions Club of Lac la Biche will sponsor an annual Amateur Concert to be held in the memorial hall, Nov. 23, at 8 p.m. Prizes will be awarded for the three top performances.

If you can sing, recite or play an instrument, you may be the one to win a prize. Awarding of scholarships won by students of this area will be a highlight of the evening.

Goose Lake

Winnie Glen and Harry Miller visited in this district recently.

Herbert Erickson won first for the best dressed man at the Lac la Biche masquerade dance. He was dressed as Superman.

Robert York of Goose Lake has gone to Edmonton to work for the winter.

Miss Lydia Aune is visiting her father here.

Miss Dolly Tillapaugh has returned home from the city.

Library News

By MRS. M. CREIGHTON

LAC LA BICHE — Have you ever noticed the large number of school children coming and going around the town hall on Friday afternoons? If you ask Mrs. McMillan, Mrs. Joncas, Mrs. Coast, or Mrs. Linnell, the ladies usually in charge of the WI library, they will tell you the children are not there to pay the water bill, or to be interviewed by the town constable, but to choose a new book from the library.

Last Friday a record was established when 312 books were chosen by the children for week-end reading. This necessitates a great deal of work for the librarians, who, in their cramped quarters in the hallway of the town building, patiently assist the students in their choice of reading material as well as keep accurate records of books taken out and returned. New books are constantly being added to the collection. A new bookcase was recently built and installed and now all available space in the hallway is in use. There is a real need for a room large enough to house this growing library, which is so well patronized by children and adults alike. If the demand for good reading continues as it has in the past, a full-time librarian will be needed in the near future.

LA Bazaar Is Success

LAC LA BICHE — The United Church Ladies' Aid was fortunate to have nice weather for their annual bazaar and tea which was held in the memorial hall, Oct. 25. The table of fancy articles for sale featured such items as pillow slips, dish cloths, fancy felt shopping bags, felt slippers, mitts, scarfs, sox, an apron park and many other hand-made articles. Mrs. Steve Hamar, Mrs. M. Shewchuk, Mrs. Alex Proctor and Mrs. Stan Kelly were in charge of this section.

The bake sale table, managed by Mrs. M. Lett and Mrs. Fred Harman, was loaded with many kinds of cakes, pie and cookies as well as homemade candy. A big attraction was the free cake walk demonstrated by Mrs. Proctor and Mrs. Lett. A choice fruit cake, donated by Mrs. F. McMillan, was sold by auction, with Mr. Cramer as auctioneer.

The white elephant table and the cactus plant table drew many customers. The fish pond was a source of entertainment for the children. Many enjoyed the tea and fancy sandwiches and other foods served. A large crowd was in attendance, and the ladies were well rewarded financially for their hard work in making the bazaar such a success.

It's A Boy

Mr. and Mrs. Emile Desjarlais, of Brierville, are proud parents of a son, born recently in St. Catherine's Hospital, Lac la Biche.

Nearly every body is for the common good until they come to the pocketbook test.

W.I. Meets

The regular meeting of the Lac la Biche W.I. was held at the home of Mrs. M. Hamar on Nov. 7.

It was announced that the bingo at the last meeting earned $32.05. The annual W.I. scholarship is to be presented to Marilyn McMillan at the Lions Club amateur night.

The Christmas party committee reported that the presents for the children have been bought and are already wrapped.

A letter of thanks from the C.N.I.B. was read. Also a letter from Mrs. Myskiw to say thank you for the flowers received after the auto accident in which she was injured.

A nominating committee was chosen to see about the officers for the next year.

Miss Montalbetti, home economist, gave a demonstration of the making of party sandwiches. She demonstrated the making of rolled, ribbon, checkerboard and open-faced sandwiches, and different ways of cutting conventional sandwiches to add variety to the sandwich plate. Miss Montalbetti also displayed a variety of handicraft items.

Spruce Valley

DISTRICT AGRICULTURIST NOTES

By J. S. LORE

Handle With Care — One spoiled egg in the chef's frying pan and perhaps a large hotel cancels its order, or uses the egg to pellet the producer. No one wants this to happen. Perhaps a few of the pointers given by R. McMillan, Poultry Commissioner, Alberta Department of Agriculture, will save you from spoiled egg fate.

The quality of an egg cannot be improved once it has been laid, but through improper handling and care it may deteriorate. Good farm practices are therefore essential especially during the wintertime, if eggs are to bring top prices.

Eggs should be gathered in a wire basket at least three times daily and then immediately placed in a cool humid egg-room. The egg-room should be well ventilated and maintained at a temperature close to 50 degrees. Care must be taken to be sure that no offensive or musty odors are present, such as kerosene, as they may be absorbed through the porous egg shell.

Cool eggs rapidly. They should never be packed in a case until they have been allowed to cool in a wire basket in the egg-room for at least 12 hours. The newly-laid egg has an interior temperature of just over 100 degrees F., and if packed immediately, the animal heat within the egg will be retained, causing a serious loss in egg quality.

After eggs have cooled for at least 12 hours, R. McMillan, Poultry Commissioner, Alberta Department of Agriculture, recommends packing according to size and color in clean Keyes trays with the large end up. The cracked and excessively dirty eggs should be removed. Unless you prefer a top layer of scrambled eggs, do not nail covers to centre partitions of egg case. Instead, tack the ends of the case. If you have provided fresh nesting material and kept your litter in dry condition, your eggs will in all probability be clean. This will eliminate the trouble of cleaning them with steel wool or an emery brush.

If eggs are to arrive in a fresh state, ship them to the wholesaler not less than twice a week. Clearly marked cases with the name and address of the shipper and consignee will reach their destination speedily. Illegibly marked ones can cause the delay that lowers egg quality. If eggs are to be produced for commercial purposes only, remove all males, as germination will commence at 68 degrees F.

Finally, select a means of transportation that provides protection from too high to low temperatures; a service that ensures minimum and careful handling of cases and prompt delivery to the receiver's floors. Do not ship by truck except on surface roads.

For further information, contact your local District Agriculturist or write to the Extension Branch of the Department of Agriculture for leaflet No. 39, entitled "Production of Quality Market Eggs."

No Stability

By M. CREIGHTON

No sir! You just can't depend on anything behaving normally anymore! This year Lac la Biche wouldn't stop rising till it reached almost six feet higher than the 1930 mark. We read in the paper the other day that the Great Dipper is going to change its outline and now we find in Lac la Biche that ghosts and witches, who for centuries have been known to operate in the dark hours only, have taken to coming out in broad daylight. On the afternoon of Oct. 31 some of these creatures were seen on the streets of this town, occasionally travelling in bands of four or five, and even six at a time. As darkness approached thir numbers increased at an alarming rate, and it appeared for a time that they might take over control of the town. (Some were seen in the vicinity of the Town Hall). Everyone who was unfortunate enough to get a close look at them said many had a very ugly look. Quantities of apples, oranges, suckers, nuts and candy were handed out freely by householders all over the town from around 3:45 in the afternoon, when the siege began, till after 8 o'clock, in a united, heroic effort by townspeople to appease the insurgents. By about 8:30 p.m. the situation had quite suddenly become quiet again, and it appeared that the invaders had nearly all, if not all, gone back to the moon or wherever they came from.

No sir! You can't depend on anything behaving normally anymore.

Hold Bazaar

LAC LA BICHE — The Ukrainian Greek Orthodox Ladies' Society held its annual bazaar, Nov. 8, in the recently completed basement of the Greek Orthodox Church. A beautiful collection of embroidered and crocheted items, including a large variety of aprons were offered for sale. Other features were a table of home baking and cabbage rolls as well as white elephant table and a fish pond. Tea and lunch were served from 3 to 6. The draw, held for a raffle and bingo furished added entertainment.

TB Clinic Notes

By AUDREY B. COAST

The T.B. chest X-ray clinic has come and gone. The members of the committees would like to extend their thanks to all who worked with them in the organization and operation of the clinic. The response was amazing and so much of the help was freely volunteered. Mrs. S. Hamar, Mrs. M. Hamar, Mrs. Booker, Mrs. Kelly and I would like to thank the members of the committees.

A vote of thanks goes to the Legion for the donation of the Memorial Hall and to the Lions for their donation of money and stamps.

Another vote of thanks to Mr. Macagno for his assistance and for showing the notices on the screen; to Mr Dobson for making the necessary electrical arrangements; and to Mrs. Horsford for his attention to the comfort of the workers at the hall. A general vote of thanks goes to Mrs. Steve Hamar, the general chairman, from the chairman of the other committees for her help and competent leadership.

The Ladies of St. Catherine's have announced the date of their annual parish bazaar for Nov. 15, to be held in the Memorial Hall. At 3 p.m. a variety of fancy articles, white elephant table, as well as choice home-made candy and cooking will go on sale. Fancy afternoon tea will be served to adults and children. There will be entertainment for all, including fish pond for the children, a giant bingo with many worthwhile prizes and later in the evening a draw on lucky ticet raffles.

Mrs. Chas. Lebas was a visitor in Edmonton last weekend.

Hallowe'en passed rather quietly in this town, with no serious damaged being reported. Streets were not littered with garbage cans and oil drums as is sometimes done.

The fire department was called to quell a blaze in a house located on the flats at the west entrance to town. Due to the speedy arrival of Fire Chief Dobson and the Lac la Biche volunteer fire brigade, the building was saved from more serious damage. Time of the alarm was 6:45 p.m., Sunday night.

Eddie Shewtz and Nadie Kowalyk were among local residents who spent the weekend at their homes here.

Chatter On Sweaters

By Doris Montalbetti, D.H.E.

Sweaters are one of the most versatile and practical articles of clothing in this country. Young and old alike can find sweaters for every occasion.

Although many of the sweaters on the market today are of synthetic yarns, wool is still queen of the sweater fibres. But sweaters made of orlon, nylon, acrilon, dacron, and vicara are lower in price than some wool. They have an advantage also in that they may be washed and dried with much less trouble; besides being stronger and wearing longer. The chief disadvantage of orlon and nylon sweaters is the fuzziness or pilling, which develops after wearing.

Whatever the fibre, sweaters require special laundering to preserve thir original size, shape and softness. Before washing, trace an outline of your sweater on clean heavy brown paper or firm cloth. Keep this as a guide in bringing it back to right size and shape.

Remember to: use warm water and mild soap. Try to keep sweater under suds. Do not keep lifting it out of water. Squeeze the water gently through the garment — and wash as fast as you can. If it doesn't come clean quickly, make up a second solution and wash again. Handle as gently as possible. Squeeze rather than wring. Roll up sweater in towel to remove excess moisture. Then shape the sweater to the outline you traced before washing. If you use a clothes rack to dry sweater, place it over several rungs so the air can circulate around it. Do not dry woolen garments over heat. Don't hang sweaters on hangers to dry, it will pull the shoulders out of shape. For stretched neck bands on pullover sweaters run a row or two of elastic thread on the inside on neck ribbing.

Rich Lake

Mrs. Mary Evans and Loretta went to Edmonton on Oct. 29 for dental appointments.

On Monday, Oct. 29, the T.B. chest x-ray van was at Rich Lake school. A large number of adults as well as school children were tested.

Walter Kumpula went to Edmonton on Sunday to work for Lloyd Bennett for a week.

Alex Muz had an auction sale on Nov. 3 at his farm in the Helina district. He has to quit farming because of poor health.

Mr. and Mrs. Andrew Haimila, Wilfred Haimila and Mrs. Ailie Maki motored to Edmonton Oct 30.

Mrs. Earl Whelen was rushed to Glendon hospital on Nov. 2. She has had several blood transfusions.

Mr. and Mrs. Edwin Haimila are the proud parents of a baby boy.

In the history of office-holders, few have ever tried to save their country by resigning.

Hallowe'en Party Is success

OWL RIVER — The Hallowe'en party at Owl River No. 2 School was a great success. In the early part of the evening the children came dressed in fancy costumes or hideous masks and made the school room look as if it was occupied by weird creatures from an unknown world. A small Cardinal girl received the prize for the best costume, a lovely coloring book.

The latter part of the evening was given over to dancing with a large number of young people and adults attending. Among the guests were several from Lac la Biche and mile 137.

Two girls and one young man sang beautifully, to entertain the crowd at one time in a short dance intermission.

Hot coffee and a light lunch were served free of charge to the crowd at midnight. It is believed that everyone enjoyed themselves and their attendance was greatly appreciated by those in charge.

"Dollars and Sense"
How can YOU benefit from having a Current Account?
You'll find it much easier to keep an accurate record of your current expenses when you have a Current Account.
When you pay all bills by cheque on your Current Account, you receive back, at the end of each month, all your cancelled cheques as well as a bank statement showing every withdrawal and every deposit you have made. Furthermore, they are much easier to file away than receipts and take less room to store. With them and your bank statements, you'll find it far easier to get an exact picture of how you spend your money.
So it's a good move to use a Current Account for paying all current bills—and keep your Savings Account for actual savings.
